**HAND WEEDER.**

A very handy and practical tool.

Price, each..... 25 cts.

**LANG'S HAND WEEDER.**

It is, in our opinion, the best Weeder made. Its special advantage over all other weeders of this class is that it has a band which passes over the fingers, which, when the tool is not in use, gives full use to the hand for pulling weeds and thinning out plants, without laying down the tool. Price, 25 cents; \$2.50 per dozen.

**EUREKA:**—The best little Hand Weeder for loosening soil around plants that we know of. 25 cents.

**CORN PLANTER, "The Eagle."** This is a rotary Planter, having three different sized plates, which can be put in or taken out as needed in the easiest possible manner. One of the most popular. Each. \$1.50.

## FARM AND GARDEN TOOLS.

A Complete Descriptive "Iron Age" Catalogue sent free on application

The "IRON AGE" GARDEN TOOLS are made "on honor" from the best of material and with the best workmanship. They cover all the requirements of cultivation and sowing. They do all that garden tools can do.

The No. 6 "Iron Age" Combined Double Wheel Hoe, Hill and Drill Seeder.—This tool is without question the most practical and complete combined garden tool ever offered the public—the ease and simplicity of adjustment, the lightness combined with great strength,

the accuracy by which it drills or hills the seed, and the small amount of power required to operate it, are the important features. The wheel

is made of steel, 16 inches high, the frame of pipe, coupled to malleable castings. In each form, whether a Seed Drill, a Double Wheel Hoe, or a Single Wheel Hoe, it is equal

to any tool or tools made especially for the one purpose. It places the seed in drills or in hills as at 4, 6, 8, 12 or 24 inches apart. Complete as in cut. Price \$12.00.

No. 1 "Iron Age" Double and Single Wheel Hoe. Wheel Hoe form of the No. 6. One great advantage which this Double Wheel Hoe possesses is that it can be made into a practical Single Wheel Hoe in a moment's time. As a double wheel it may be used astride the row and thus cultivate both sides of the row at the same time.

The wheels are 16 inches high, enabling the Wheel Hoe to run easily and without yielding to the inequalities of the soil as a low wheel will do. The frame being made of pipe coupled to

malleable castings, gives great strength together with lightness. Price, complete, **\$7.00**. A Seed Drill attachment may be applied for sowing in rows only, or sowing both in rows and hills. **\$4.00** and **\$5.00** respectively. This tool with side hoes only (Iron Age No. 3). Price **\$4.25**

**No. 20 "Iron Age" Single Wheel Hoe.**—The frame of this tool, as all the Iron Age combined tools, is made of pipe coupled to malleable castings, thus rendering them light and strong. A pair of side hoes, a set of cultivator teeth, a pair of rakes and a landside plow are furnished with this tool. Price complete, **\$6.00**, as with the No. 1 a seeder attachment may be added at any time.

**No. 21 Plain, (Hoes only). Price, \$4.00.**

**GARDEN TOOLS.**—We have a great variety of ordinary and new shapes of hoes, rakes, lawn rakes, spades, and all kinds of garden tools at reasonable prices.

**STEEL BOW GARDEN RAKE;** does not break in the center; 12 teeth, 40c; 14 teeth, 50c; 16 teeth, 60c.

**Fork, digging or spading, 4 angular tines, 65c.**

## SANITARY DETACHABLE FOUNTAIN.
